Make health your
top priority

CBD is one of over 113 compounds found in cannabis that belong to a class of molecules called cannabinoids

The Endo-Cannabinoid System is named after the plant that led to its discovery. It is one of the most important physiological systems involved in establishing and maintaining a healthy human existence.

The Endo-Cannabinoid system enables homeostasis: the maintenance of a stable internal environment despite fluctuations in the external world around us. The Cannabinoids promote homeostasis at every level of biological life. The Endo-Cannabinoid System and its effects go a long way in explaining what CBD is and how it can improve your health.

We have a range of different cbd oils. The bioactive cbd oils are the most popular offering a full spectrum of cannabinoids. Easy to use in juice, water or tea.

10ml 400mg cbd
bioactive oil £37.00

20ml 800mg cbd
bioactive oil £70.00

CBD oil with mct allows the oil to be absorbed significantly easier and more directly metabolised by the liver releasing the present cannabinoids. This is also an extremely effective delivery system for CBD.

10ml 500mg cbd oil
with mct oil £40.00

Our cbd oil infused with hemp oil makes this very bioavailable to the body and can be placed under the tongue and the hemp gives it a very nutty flavour!

10ml 400mg cbd
infused hemp oil
£30.00

30ml 1200mg cbd
infused hemp oil
£80.00

"I've struggled with anxiety my whole life. In sept 2017 I discovered cbd oil it has made a massive difference! Thank you"
